| This international preliminary examination report has been prepared by this International Preliminary Examining Authority and is transmitted to the applicant according to Article 36. | | | | | | |
| 2. This REPORT consists of | a total of $\frac{\gamma}{2}$ sheets, including | this cover she | et. | | | |
| This report is also accompanied by ANNEXES, i.e., sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications made before this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions under the PCT). These annexes consist of a total of sheets. | | | | | | |
| 3. This report contains indica | ations relating to the following i | tems: | | | | |
| I Basis of the rep | ort | | | | | |
| II Priority | ort. | | - | | | |
| | | | | | | |
| ļ | | elty, inventive | e step and industrial applicability | | | |
| IV Lack of unity of | | | | | | |
| V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement | | | | | | |
| VI Certain documents cited | | | | | | |
| VII Certain defects in the international application | | | | | | |
| VIII Certain observations on the international application | | | | | | |
| | | | | | | |
| Date of submission of the demand | Data | of completion | of this report | | | |

| I. | Basi | s of the report |
|------|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. | With | regard to the elements of the international application:* |
| | \boxtimes | the international application as originally filed. |
| | \boxtimes | the description: |
| | , | pages 1-27 as originally filed |
| | | pages NONE , filed with the demand pages NONE , filed with the letter of |
| | | |
| | \triangle | the claims: |
| | | pages 28-29 , as originally filed |
| | | pages NONE , as amended (together with any statement) under Article 19 pages NONE , filed with the demand |
| | | pages NONE , filed with the letter of |
| | | |
| | لـــا | the drawings: |
| | | pages NONE, as originally filed pages NONE, filed with the demand |
| | | pages NONE , filed with the letter of |
| | | |
| | Ш | the sequence listing part of the description: |
| | | pages NONE, as originally filed pages NONE, filed with the demand |
| | | pages NONE, filed with the letter of |
| 2. | With | a regard to the language, all the elements marked above were available or furnished to this Authority in the |
| | lang | uage in which the international application was filed, unless otherwise indicated under this item. |
| | Thes | se elements were available or furnished to this Authority in the following language which is: |
| | | the language of a translation furnished for the purposes of international search (under Rule23.1(b)). |
| | H | |
| | H | the language of publication of the international application (under Rule 48.3(b)). |
| | Ш | the language of the translation furnished for the purposes of international preliminary examination(under Rules 55.2 and/or 55.3). |
| 3. | Witl | n regard to any nucleotide and/or amino acid sequence disclosed in the international application, the |
| | inter | national preliminary examination was carried out on the basis of the sequence listing: |
| | | contained in the international application in printed form. |
| | \vdash | filed together with the international application in computer readable form. |
| | \square | furnished subsequently to this Authority in written form. |
| | Щ | furnished subsequently to this Authority in computer readable form. |
| | | The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. |
| | | The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. |
| 4. | | The amendments have resulted in the cancellation of: |
| | | the description, pages NONE |
| | | the claims, Nos. NONE |
| | | the drawings, sheets/fig NONE |
| 5. | | |
| | —↓ P==' | This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).** |
| ını. | s repo | cement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in ort as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). replacement sheet containing such amendments must be referred to under item 1 and annexed to this report. |

INTERNATIONAL PRELIMINATION REPORT

International application No. PCT/US03/20188

| V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement 1. STATEMENT Novelty (N) Claims 1-11 | | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
